Customer Engagement Apps

Strengthening Customer Relationships

Table Tiger

Digital Loyalty

Braandz

Mobile ECR

Payment Loyalty

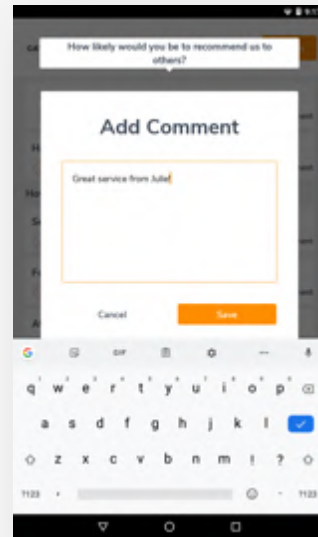

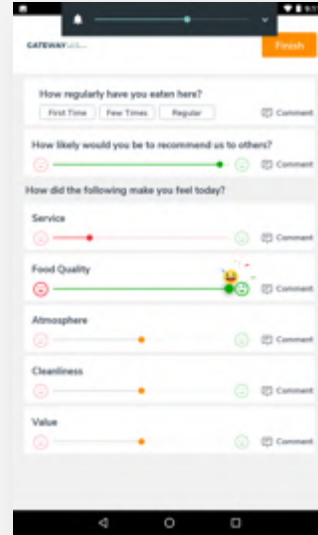

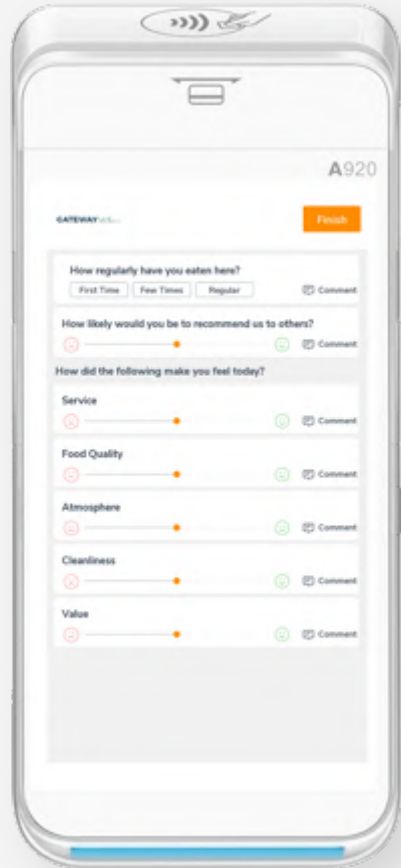

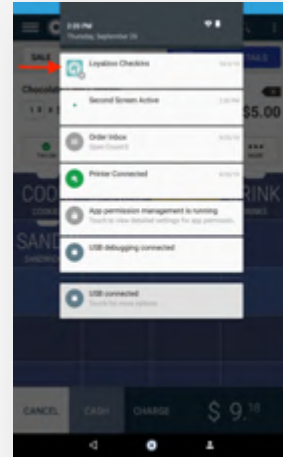

Table Tiger (UK) www.table-tiger.com

Table Tiger integrates with the PAX A920 enabling customers to split and pay their bill quickly - without staff input and using games. Customers continue to an engaging survey which delivers actionable insights and data to a management portal.

Customer Engagement

Order Management

Digital Loyalty (UK) www.loyalzoo.com

Grow your business today with the easiest digital loyalty solution for PAX devices. With Loyalzoo, create and run your own loyalty program in under 2 minutes, and engage customers through points notifications and promotions delivered by SMS/text, email or push. Customers do not need to use an app to participate.

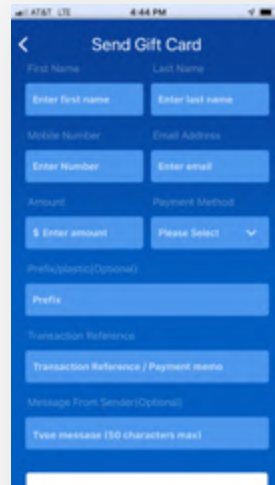

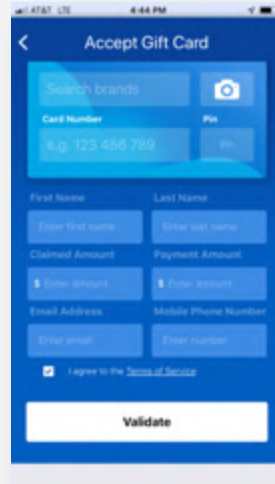

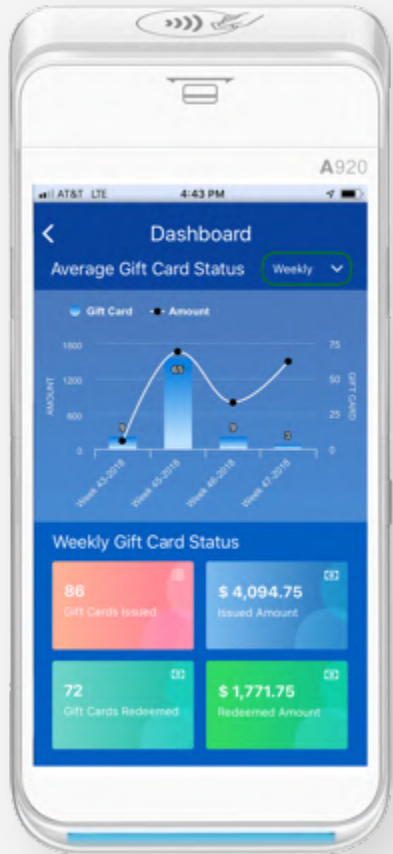

Merchants who run their loyalty program with Loyalzoo grow revenues by 11% on average, by simply increasing customer retention, and without reducing margins.

- No more paper or plastic cards – completely digital loyalty solution
- Sign customers up directly from your POS terminal, or separate tablet
- Free POS marketing material posted to you, to help you promote your new loyalty program
- Upload customer profile pictures
- Unlimited enrolled customers
- Supports multiple locations – points are shared among different stores
- Easily migrate customer data from competing loyalty systems (eg Fivestars, Appcard, Customer Connect, etc)

Customer Engagement

Point Management

Order Management

Braandz (USA) www.braandz.com

The Braandz App gives merchants the ability to accept major brand gift cards as payment, including Walmart, BestBuy, Target, Starbucks and more.

Registered merchants can also issue and redeem their own electronic gift cards and activate any plastic gift card in seconds.

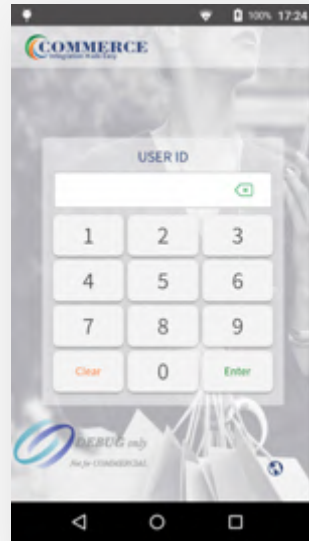

Real time reporting ensures all users have easy access to account details.

Drive Traffic

Increase Sales

Gift Card Management

Consumption

Mobile ECR (USA)

Mobile ECR is a point of sale handheld application suitable for a variety of retail, fast food industry. Key features include inventory management, customer management, EMV payment processing, EBT, time cards, gift card and loyalty support.

Inventory Management

Customer Management

Gift Card Management

Point Management

Payment Loyalty www.paymentloyalty.co

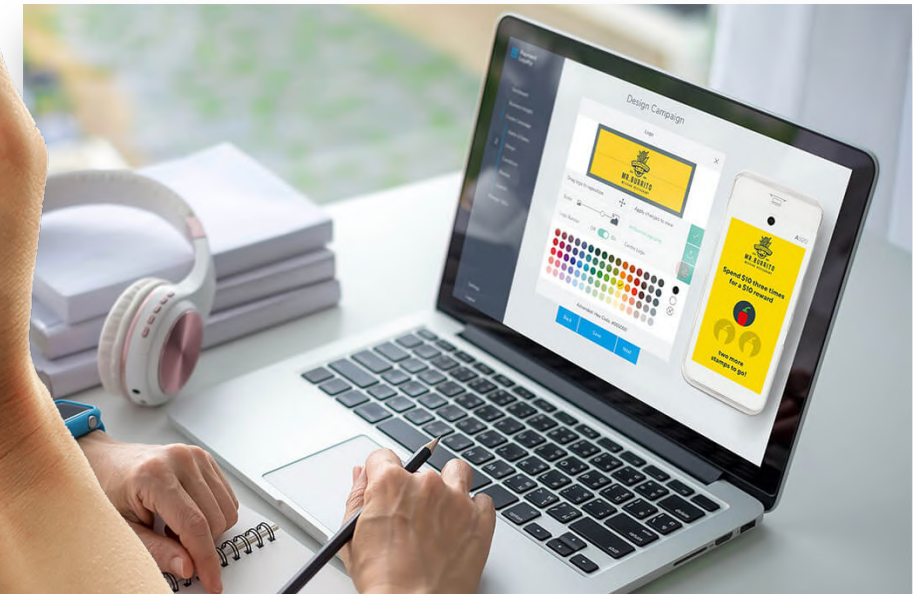

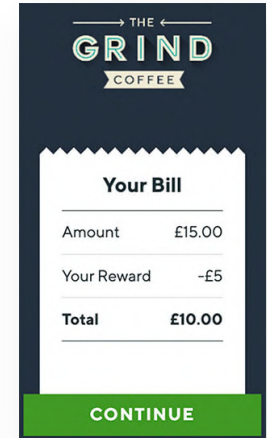

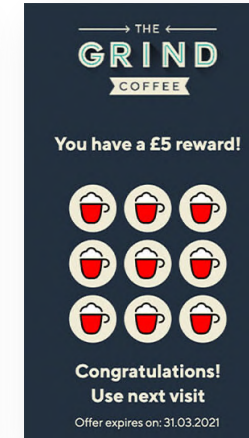

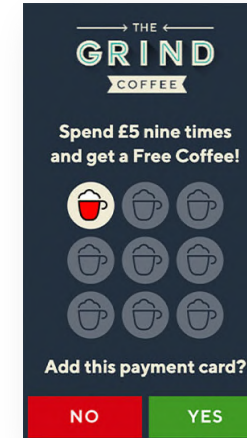

Drive increased customer spend levels and visit frequency with custom branded stamp-card campaigns that turn customer payment cards into loyalty cards. Eliminates need for additional loyalty cards, customer sign-up, staff-member work overhead and extra time at checkout.

Your customers see their progress each time they checkout (contactless, mobile payment, chip & pin all supported). Create your own custom campaigns using our simple Campaign Portal, then start giving your customers a great reason to come back soon...

Custom Campaign

When I Work (USA) www.wheniwork.com

“When I Work” is the easiest way to create an employee schedule, handle employee time tracking, and communicate with your staff.

- Make sure your employees never miss a shift
- Employees will be sent shift reminders
- Create a template you can use time and time again
- View and accept time off requests
- Create, cancel, update, and publish shifts

Payment

Bleu POS (USA) www.bleuco.com

Universal Terminal

Bleu's integrated point of sale is an elegant all in one platform for any retailer, big or small.

BLEU-GO MOBILE APP

Customers can place orders ahead of time and they are delivered straight to the Bleu point of sale. Merchants are notified when the customers arrive to pick up their orders on the go.

In Store Analytics

As customers enter your store, their mobile devices connect and transition from one Bleu beacon to the next, transmitting valuable information on visits, micro location data, and shopper experience.

Payment Data

Customers create profiles within Bleu that allow merchants to understand and identify customer preferences and consumer habits.

Contextual Marketing

Now Merchants can use the analytics to design marketing campaigns, create customer loyalty and rewards, customize the layout of your retail space, and add new products.
